

My entire family listens to radio station K-LOVE every day knowing that we will hear a positive message and uplifting music. I don't have to worry about what my young children might hear on that station. To eliminate this type of positive station from the Modesto community would be devastating to my family and many of our friends. K-LOVE provides a vital service to us that we can get from no other station in the area. Their positive programming is a good balance to many other stations that seem to glorify all that is ugly in this country.
